Dear Requestor,

Thank you for your California Public Records Act request. The City has identified a substantial volume of potentially responsive records. Due to the quantity of materials that must be located, reviewed, and where necessary, redacted to protect information exempt from disclosure under the California Public Records Act, additional time is required to complete this process.

A portion of the responsive records has been released and is available for viewing. Staff will continue to review and release documents as soon as possible and anticipates an update being available on or before July 24, 2026.

Sincerely,

Alexandra Valadez
Assistant City Clerk
City of Santa Maria
